

## MIGRATOR for Office 365

**MetaVis MIGRATOR FOR OFFICE 365** makes it easy to migrate to Microsoft Office 365 and SharePoint online. **MetaVis** is agentless and does not require users to install server side components – making it ideal for migrating to the cloud. **MIGRATOR FOR OFFICE 365** allows you to maintain your Created and Modified metadata in Office 365 SharePoint. This allows you to retain critical information required for compliance and governance policies. Just install **MetaVis** on your workstation and start migrating to Office 365.

Office 365 migration should not be a complicated or expensive process. With **MetaVis** you can easily migrate to Office 365 and design a SharePoint online information architecture that leverages metadata management and taxonomy structures to keep your content organized and searchable – even in the cloud.

**MetaVis MIGRATOR FOR OFFICE 365** is designed to be used over and over again and for all your SharePoint online migration needs. Our software utilizes a familiar Windows Explorer interface, allowing users to Copy/Paste and drag-and-drop items. It is quick to install and easy to use. This dramatically reduces the cost and timeline of migration projects.

**MetaVis MIGRATOR FOR OFFICE 365** allows you to reorganize your content as you migrate to Office 365 helping you unlock the full potential of SharePoint online search and navigation. Retain existing metadata or classify legacy content during migration.
