

## MetaVis Online for SharePoint

**MetaVis ONLINE** for SharePoint is an enterprise-class software as a service (SaaS) SharePoint migration solution to help organizations quickly and cost effectively migrate to Office 365 SharePoint Online. **MetaVis ONLINE** can quickly scale to help you securely migrate SharePoint content, no matter how large the task. It also helps companies easily create and manage hybrid (premise based and hosted) SharePoint environments. Register at [www.metavistech.com](http://www.metavistech.com), enter their source and target SharePoint sites via a web browser and begin migrating within minutes.

The **MetaVis** approach is totally agentless and takes full advantage of standard SharePoint APIs eliminating the need for custom server side controls, SQL Server access or elevated privileges. With no hardware or software to install, our solution is easy to set up and run – anytime, anywhere. You can even run a migration from your smart phone or tablet computer.

Using a cloud-based infrastructure, **MetaVis ONLINE** can scale to meet the needs of any size project saving you time and resources. You won't have to find and allocate internal resources for you migration or back up project – let **MetaVis ONLINE** handle it.

Whether you are moving, consolidating or upgrading your SharePoint 2010, 2007 or 2003 environment, **MetaVis ONLINE** provides the easiest way to perform these activities.

Save money with this simple, cost effective and efficient migration solution for businesses of all sizes.

- ***Migrate from on-premises to hosted SharePoint including Office 365***
- ***Migrate hosted SharePoint to another hosted SharePoint including BPOS to Office 365***
- ***Migrate from on-premises to on-premises SharePoint***
- ***Co-exist premise based and hosted SharePoint***

### ➤ **Benefits**

- ***Saves time by taking the work out of configuring IT environments and allowing you to simultaneously migrate content***
- ***Schedule migrations anytime - not just during off-hours***
- ***No need to re-allocate IT servers or other resources that are being used for other mission critical applications***
- ***No need to buy software licenses – purchase only what you need***
- ***Configure and submit your migration in minutes with no prior experience needed***
